Niagara County Restaurants Providing Take-Out / Delivery Services

The Niagara County Department of Health Environmental Division has compiled a list of restaurants that continue to provide take-out and delivery services during Niagara County's response to the COVID-19 public health emergency. These facilities have been deemed essential retail according to the governor's guidance on essential services under the 'New York State on PAUSE' executive order: <https://www.governor.ny.gov/news/governor-cuomo-issues-guidance-essential-services-under-new-york-state-pause-executive-order>. According to this guidance, restaurants/bars have been allowed to continue to operate in an effort to serve the public, but only for take-out and/or delivery service.

Restaurant seating is not allowed at this time. Restaurants providing take-out/delivery have been required to take steps to allow for adequate social distancing for patrons at pick-up locations. This includes facilitation of social distancing of at least six feet. "Social distancing remains a critical protective action all persons should take. Maintaining a distance of approximately 6 feet from others, when possible, is key for those utilizing restaurant services for take-out or delivery," stated Public Health Director Daniel J. Stapleton.

For a listing of food service providers offering take-out / delivery options, please visit the Niagara County Department of Health website at: <https://www.niagaracounty.com/health/Services/Environmental-Health/Food-Protection-Information/Takeout-Delivery-Options>.

If you have questions or concerns regarding the Environmental Health Food Service Program, please call 716-439-7444.

PUBLIC HEALTH: PREVENT. PROMOTE. PROTECT.
