ENGINEERING TECHNICIAN (6:30 a.m. – 3:30 p.m. M-F)

We have an excellent full-time opportunity for a technically diverse individual with mechanical aptitude wanting to challenge themselves by coordinating and performing testing and support duties required by our experienced team of engineers. Manage your own schedule not only to aid in the development of new product designs, but to improve existing product designs, and to undertake research and development projects. Must possess the ability to interact professionally with various departments and with all levels of staff and perform under limited supervision.

Requirements:

- High school diploma. Two-year technical degree and technical experience preferred.
- Proficient in Microsoft Office software (e.g. Word, Excel, Outlook).
- Ability to communicate in English, both written and orally.
- Ability to train and expand knowledge/experience through Engineering skill subsets.
- Possess a valid driver's license with no restrictions.
- Travel may be required to support projects, manage customer issues, provide support for sales, gain product information, resolve customer issues, or attend trade shows.
