

Resume 507

OBJECTIVE:

To secure a position with your company utilizing my skills and experience as a *Phlebotomist* or as a *CNA*

SUMMARY OF QUALIFICATION:

- Experience as a *CNA* and *Phlebotomist* providing acute patient care in nursing home and in-home settings, including care for Alzheimer's, dementia, geriatric, post-op rehab, and terminally-ill patients
- Experienced managing care for residents per shift including bathing, feeding, dressing, bathroom assistance, transporting, exercise/activities, etc.
- Understands the importance of patient confidentiality and complies with all HIPAA rules and regulations
- Excellent working knowledge of medical and psychological terms and concepts
- Some experience training new healthcare personnel, delegating work orders, monitoring all work activities and resident/employee interactions, conducting performance evaluations, and consulting with upper management for employee progress/status reports
- Strong problem-solving skills often in a fast paced, high-pressure environment
- Excellent communication skills and experienced resolving residents' issues
- Familiar with using computers, Windows, Internet research, and email
- Multi-tasks effectively, learns new systems quickly, and completes all projects on or ahead of schedule
- Dependable, conscientious and cooperative colleague
- Works well independently or with a team of other health care professionals

PROFESSIONAL EXPERIENCE:

03/15 – Present *CNA*

Northgate Healthcare Facility, North Tonawanda, NY

- Daily care of residents (bathing, and feeding, dressing, bathroom assistance, transporting, exercise/activities, etc.)
- Take vital measurements (fluids, pulse, blood pressure, etc.) routinely and as needed
- Maintain all aspects of residents' sanitary conditions
- Prepare and maintain records of client progress and services performed, reporting changes in client condition to manager or supervisor.
- Care for individuals or families during periods of incapacitation, family disruption, or convalescence, providing companionship, personal care, or help in adjusting to new lifestyles.
- Lift or assist others to lift patients to move them on or off beds, examination tables, surgical tables, or stretchers.

07/21 – Present *CNA*

Nurse Finders, Niagara Falls, NY

- Travel CNA, assigned to various locations throughout the area
- Daily care of residents (bathing, and feeding, dressing, bathroom assistance, transporting, exercise/activities, etc.)
- Utilized Hoyer lifts to move patients
- Took vital measurements (fluids, pulse, blood pressure, etc.) routinely and as needed
- Maintained all aspects of residents' sanitary conditions
- Recorded intake and out-take information/measurements
- Assisted, transported, and accompanied residents to and from medical and necessary appointments

01/18 - 02/21 *Phlebotomist / PCA II*

Niagara Falls Memorial Hospital, Niagara Falls, NY

- Drew blood from veins by vacuum tube, syringe, or butterfly venipuncture methods.
- Organized or cleaned blood-drawing trays, ensuring that all instruments are sterile and all needles, syringes, or related items are of first-time use.
- Disposed of blood or other biohazard fluids or tissue, in accordance with applicable laws, standards, or policies.
- Conducted standards tests, such as blood alcohol, blood culture, oral glucose tolerance, glucose screening, blood smears, or peak and trough drug levels tests.
- Collected specimens at specific time intervals for tests, such as those assessing therapeutic drug levels.
- Entered patient, specimen, insurance, or billing information into computer.
- Recorded vital signs, such as temperature, blood pressure, pulse, or respiration rate, as directed by medical or nursing staff.
- Measured and recorded food and liquid intake or urinary and fecal output, reporting changes to medical or nursing staff.
- Documented route of specimens from collection to laboratory analysis and diagnosis.
- Transported patients to treatment units, testing units, operating rooms, or other areas.

05/17 – 12/20 **CNA**

Elderwood at Wheatfield, Niagara Falls, NY

- Daily care of residents (bathing, and feeding, dressing, bathroom assistance, transporting, exercise/activities, etc.)
- Take vital measurements (fluids, pulse, blood pressure, etc.) routinely and as needed
- Maintain all aspects of residents' sanitary conditions
- Prepare and maintain records of client progress and services performed, reporting changes in client condition to manager or supervisor.
- Care for individuals or families during periods of incapacitation, family disruption, or convalescence, providing companionship, personal care, or help in adjusting to new lifestyles.
- Lift or assist others to lift patients to move them on or off beds, examination tables, surgical tables, or stretchers.
