First-Hand Experience with OJT

Hear from local businesses who received a 50% reimbursement of a new-hire's salary while they learned on the job through the On-the-Job Training (OJT) program.

"As a small business owner I highly recommend this program"

Deb Bota, Co-Owner of Bota Welding, LLC:

"The Niagara's WorkSourceOne has been a wonderful experience for our company. Not only did this program enable us to hire a person not totally qualified for a position, but we also received information ...about all the different services available to our company. As a small business owner I highly recommend this program/agency."

Melanie Bream, HR and Accounting Administrator at Chameleon Color Cards:

"The on-the-job training was a great program to help offset the cost to hire and train a new employee. Marilyn and Bonnie made the entire process smooth and easy...I greatly recommend this program for anyone that needs to hire and train new employees."
